Part III DETAILED ACTION

1. Claims 1-9, 11-17, 19-22, 24-25 and 27-30 are pending.
2. Claims 27-30 stand withdrawn from consideration as being directed to a non-elected invention, for reasons set forth in Paper No. 14.
3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9-13-02 has been entered.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-9, 11-17, 19-22 and 24-25 stand rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for isolating caveolae by using antibody which binds oligomerized caveolin in its native state as an oligomeric structural cage surrounding intact caveolae, wherein said monoclonal antibody is CAV or otherwise known as Mab clone 2234, does not reasonably provide enablement for the use of any monoclonal antibody which binds oligomerized caveolin in its native state as an oligomeric structural cage surrounding intact caveolae. The specification does not enable any person skilled in the art to which it pertains, or with which it is most clearly connected, to use the invention commensurate in scope with these claims, for reasons set forth in Paper Nos. 20 and 22.

Applicant's arguments filed 9-13-02 have been fully considered but are not found persuasive.

Applicant arguments are the same as set forth in Paper No. 21 received 1-9-02.

Applicant is guided to the response set forth in Paper No. 22.

5. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS**

**ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
